## THE KOOPMAN COLLECTION

The late Henry Koopman, pioneer and dean of the antiquarians in New York, was born at Zwolle, Holland, in 1849. He established himself in 1883 at Seventeenth Street, near Broadway. Probably no man who ever came to New York gave or received more kindly and generous consideration than he.

The American Art Association has accepted the sale of the Koopman Estate with special pleasure, remembering many past transactions and the fine integrity of its original owner.

The Collection is extremely diversified, and many of the items are of great interest for country houses. The antique furniture includes English of the Jacobean, William and Mary, Queen Anne and Georgian Periods; French, Italian, Spanish and Dutch of the seventeenth and eighteenth centuries; rare early American in maple, oak, walnut, mahogany and pine, exemplified by sideboards, cabinets, bureaus, court cupboards, mirrors, tables, numerous needlework and tapestry chairs, settees and benches. Among these is an exceptionally interesting William and Mary marquetry cabinet; an American carved walnut sofa in the Chippendale manner similar to the one in the Rhode Island Academy of Design which originally came from the Pendleton Collection and is illustrated by Vincent Lockwood, page 154, figure 656; a mounted mahogany Louis XVI escritoire from the Château d'Eu and signed by Lerpsher; notable early American sideboards; sets of and single chairs in the much sought after petit and gros point needlework, both French and English; a large Georgian table of distinction and two Chippendale mirrors with excellent lines.

The silver includes many Georgian and Dutch specimens, Louis XV Tureens and service plates from the well-known Kotschoubey Collection, Paris.

The Chinese Pottery and Porcelain ranges from the Han to the Ch'ien-lung periods and includes a fine blue and white five-piece garniture; a pair of celadon vases of the Ch'ien-lung period, numerous Ming pottery figures and about forty electric lamps fitted with decorative shades.

Among the bronze, ivory and marble busts, groups, clocks, candelabra and wall appliqués are an important pair of Flemish Renaissance torchères from Malines Cathedral and a bust of Napoleon by Canova.

Delft faience, French and English porcelains, include William of Orange plates, a delightful tea set by Barr, Flight & Barr, two important vases by Grainger, several Crown Derby tea, fruit and dinner services by Duesbury; and Chelsea and other figurines.

Chinese Lowestoft is well represented by a rare armorial dinner service, vases and many exceptionally fine plates and bowls.

Irish and English glass of the eighteenth century; Waterford and Bristol, includes lustres, chandeliers, candelabra, compotiers and vases, many cut with unique patterns of great beauty.

Antique brocades, damasks, velvets and tapestries include cushions, table centers, useful decorative vestments and two seventeenth century Aubusson verdure tapestries.

Seventeenth and eighteenth century English, French and Italian brass and iron andirons, grates, lanterns, torchères and gates, including a most notable collection of fire backs from the Château de St. Cloud acquired by Mr. Henry Koopman subsequently to the burning and sacking of the Château by the Prussians in 1870; and numerous old English cast-iron garden benches, tables and vases that will prove of timely interest for the country house.

Decorative French, English and Dutch paintings; portraits, flower-pieces, architectural ruins, including three distinguished sets of wall panels of exceptional merit.

## CONDITIONS OF SALE

I. **Rejection of bids:** Any bid which is not commensurate with the value of the article offered or which is merely a nominal or fractional advance may be rejected by the auctioneer if in his judgment such bid would be likely to affect the sale injuriously.

II. **The buyer:** The highest bidder shall be the buyer, and if any dispute arises between two or more bidders, the auctioneer shall either decide the same or put up for re-sale the lot so in dispute.

III. **Identification and part payment by buyer:** The name of the buyer of each lot shall be given immediately on the sale thereof, and when so required, each buyer shall sign a card giving the lot number, amount for which sold, and his or her name and address.

Payment at the actual time of the sale shall be made of all or such part of the purchase prices as may be required.

If the two foregoing conditions are not complied with, the lot or lots so purchased may at the option of the auctioneer be put up again and re-sold.

IV. **Risk after purchase:** Title passes upon the fall of the auctioneer's hammer and thereafter neither the consignor nor the Association is responsible for the loss or any damage to any article occasioned by theft, fire, breakage or any other cause.

V. **Delivery of purchases:** Delivery of *any* purchases will be made only upon payment of the total amount due for *all* purchases at the sale.

Deliveries will be made at the place of sale or at the storage warehouse to which purchases may have been removed.

Deliveries at the American Art Galleries will be made only between the hours of 9 A. M. and 1 P. M. on sales' days and on other days—except holidays, when no deliveries will be made—between the hours of 9 A. M. and 5 P. M.

Deliveries at places of sale other than the American Art Galleries will be made only during the forenoon following the day of sale unless by special notice or arrangement to the contrary.

Deliveries at the storage warehouse to which goods may have been sent will be made on any day other than holidays between the hours of 9 and 5.

Deliveries of any purchases of small articles likely to be lost or mislaid may be made at the discretion of the auctioneer during the session of the sale at which they were sold.

**VI. Storage in default of prompt payment and calling for goods:** Articles not paid for in full and either not called for by the purchaser or delivered upon his or her order by noon of the day following that of the sale will be turned over by the Association to some carter to be carried to and stored in some warehouse until the time of the delivery therefrom to the purchaser, and the cost of such cartage and storage will be charged against the purchaser and the risk of loss or damage occasioned by such removal or storage will be upon the purchaser.

**NOTE:** The limited space of the Delivery Rooms of the Association makes the above requirements necessary, and it is not alone for the benefit of the Association, but also for that of its patrons, whose goods otherwise would have to be so crowded as to be subject to damage and loss.

**VII. Shipping:** Shipping, boxing or wrapping of purchases is a business in which the Association is in no wise engaged, and will not be performed by the Association for purchasers. The Association will, however, afford to purchasers every facility for employing at current and reasonable rates carriers and packers; doing so, however, without any assumption of responsibility on its part for the acts and charges of the parties engaged for such service.

**VIII. Guaranty:** The Association exercises great care to catalogue every lot correctly and endeavors therein and also at the actual time of sale to point out any error, defect or imperfection, but guaranty is not made either by the owner or the Association of the correctness of the description, genuineness, authenticity or condition of any lot and no sale will be set aside on account of any incorrectness, error of cataloguing or imperfection not noted or pointed out. Every lot is sold "as is" and without recourse.

Every lot is on public exhibition one or more days prior to its sale, and the Association will give consideration to the opinion of any trustworthy expert to the effect that any lot has been incorrectly catalogued and in its judgment may thereafter sell the lot as catalogued or make mention of the opinion of such expert, who thereby will become responsible for such damage as might result were his opinion without foundation.

**IX. Buying on order:** Buying or bidding by the Association for responsible parties on orders transmitted to it by mail, telegraph or telephone will be faithfully attended to without charge or commission. Any purchases so made will be subject to the foregoing conditions of sale *except* that, in the event of a purchase of a lot of one or more books by or for a purchaser who has not through himself or his agent been present at the exhibition or sale, the Association will permit such lot to be returned within ten days from the date of sale and the purchase money will be refunded if the lot in any manner differs from its catalogue description.

Orders for execution by the Association should be written and given with such plainness as to leave no room for misunderstanding. Not only should the lot number be given, but also the title, and bids should be stated to be so much for the lot, and when the lot consists of one or more volumes of books or objects of art, the bid per volume or piece should also be stated. If the one transmitting the order is unknown to the Association, a deposit should be sent or reference submitted. Shipping directions should also be given.

**Priced Catalogues:** Priced copies of the catalogue or any session thereof, will be furnished by the Association at charges commensurate with the duties involved in copying the necessary information from the records of the Association.
